

UVMATIC Advanced Air Purification System

The UVMATIC® helps to resolve persistent odour problems by destroying bacteria in the air and on surfaces. It destroys viruses such as influenza and coronavirus, as well as E.coli, salmonella and similar bacteria, and is proven to be highly effective in removing unpleasant smells in areas such as sluice rooms, washrooms and corridors.

- Creates a clean environment by removing odour causing airborne and surface bacteria
- Protects users by creating a hygienic environment free of viruses, mould and fungi
- Environmentally friendly reducing the need for harsh chemical solutions to control bad odours
- Minimal running costs similar to a low energy light bulb
- Creates a noticeably healthier environment for all users
- Minimal maintenance allowing for cost effective odour cleansing
- Combines UV and Ozone technology to combat malodours
- 24/7 operation providing total support to existing cleaning regime
- High quality, low maintenance UV lamp
- Mains installation
- Flexible mounting options
- Creates a cleaner, safer environment
