

Aspire Single Use Patient Slings

General Purpose Sling with Head Support designed for single and exclusive patient use before disposal when soiled

- Reduces or eliminates the risk of cross contamination between users
- Strong and durable non-woven fabric provides a comfortable and safe lift
- Identification tag for care and nursing staff to write patient's name to help control exclusive use
- Intuitive usage indicator identifies when sling has been wet or washed, rendering it no longer available for use
- Clear coloured binding tape identifies sling size
- Sold in packs of 5
