

Snowdon Comfort Bed Package

The Snowdon Bedroom selection offers a highly capable assistive bed in a stylish array of interior design options to complement your home. The ultralow minimum height creates a best practice solution for reducing falls risk. This makes the bed particularly helpful for users with Dementia or other cognitive considerations

A range of natural timber palettes through to soft and vibrant upholstered finishes ensures the homely feel and surroundings of the room are maintained while improving safety and independence.

Selecting your perfect bedroom starts with our range of [custom headboards and finishes](#).

Despite the breadth of aesthetic options, each suite naturally addresses the key [clinical considerations](#) important to maintaining user independence and remains compatible with a full range of [accessories](#).

The Aidacare Bedroom Selection is manufactured to the highest standards and the generous warranty terms reflect the market leading [performance and durability](#) of our products

*Sublime Tweak shown with Shown with laminate side trim
