

Facility Services

New Fit-Outs

Greenfield or Re-development?

Building a new Hospital facility from the ground up or extending or redeveloping an existing site?

Aidacare are the equipment supply partners to work with you or your developer to get the look and function you want out of your equipment.

- Equipment type and quantity advice
- Workflow analysis to ensure mobile equipment (trolleys etc) meet both function and efficiency needs
- Project rates to keep you on budget
- Combine purchasing of selected equipment to a single supplier to achieve maximum value
- Free on-site assessment and comprehensive quotations
- Committed delivery dates and on-site set up and installation
- Project manager to oversee equipment for your new project from plan, quotation, order, delivery and install stages
- Call 1300 133 120 to arrange a complimentary consultation with one of our Hospital Facility experts
